DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 3-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Fuss (US 5,468,556).

The rejection as provided by the Board of Patent Appeals and Interferences (see Decision by BPAI of 2/12/07; pages 3-8) is maintained. Fuss clearly provides a system operable to convert sheet stock material into a configuration having at least two layers fixed in overlapping relationship; see figures 2-6; Decision pg. 8, paragraph 1. Note that notwithstanding the multiple configurations as presented in the figures; Fuss further discloses the use of paperboard or chipboard (commonly known in the art constructed of at least two overlapping layers); see column 2, lines 45+.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 4-9 and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fuss (US 5,468,556) in view of Cruz et al. (US 6,251,054) or Wishusen, III (US 5,643,647).

As per the Decision of the Board of Patent Appeals and Interferences of 2/12/07 the previous rejection is maintained; see above.

Response to Arguments

5. Applicant's arguments filed 4/12/07 have been fully considered but they are not persuasive. Arguments directed towards issues already decided by the Board of Patent Appeals and Interferences are not open to further prosecution; see MPEP 1214.01(I).

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). Note that applicant can file a second appeal, however such appeal must be limited to the 37 CFR 41.50(b) rejection and may not include the affirmed rejection; see MPEP 1214.01.

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

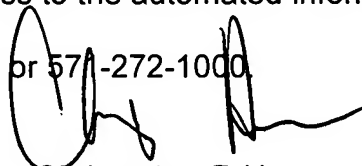

Art Unit: 3721

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
